OVERVIEW

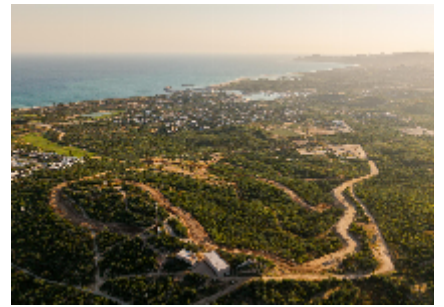

Concepción Alta is the new residential community within Puerto Los Cabos, offering a limited collection of thoughtfully designed homesites. Phase I includes 67 lots across three distinct typologies: Cima, Montaña, and Valle, each planned to maximize privacy, topography, and panoramic views while blending seamlessly with the natural desert landscape. Defined by a low-density vision, over 60% of the community is preserved as green space, incorporating native vegetation. Residents enjoy access to Concepción Hill Club and Beach Club, as well as the Puerto Los Cabos Membership. Delivery is expected by the end of 2026.
