OVERVIEW

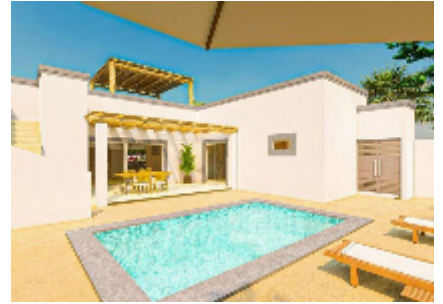

Modern design meets Baja lifestyle in this thoughtfully crafted 2-bedroom, 2-bathroom home with the bonus of a fully self-contained casita! The main house features an open-concept layout, custom cabinetry, quality finishes, and sliding doors that lead to your shaded terrace and tiled pool. High ceilings and great airflow keep it cool year-round. The separate guest casita includes a bedroom, full bathroom, and its own kitchenette ideal for visitors, a long-term tenant, or even a private office. This model also includes a rooftop terrace with shade pergola, perfect for stargazing or catching Sea of Cortez breezes, plus a second pergola over the parking area. All on a walled and gated lot with desert landscaping and plenty of privacy.
